

CENTURY FINE-TIP METAL MARKER

Directs of Use:

- Remove Cap. For cold start press the rubber ball/valve 4-5 times at the bottom for ink flow at the tip.
- Mark vertically at 90-degree angle & ensure the ball presses the surface for smooth ink flow.
- As pressure reduces, press the rubber valve 2-3 times to continue writing.
- Do not press the rubber bulb when not in use as it will lead to increase ink pressure. Clean the tip & put the cap back on when after each use.

Features

- Century's Fine-tip metal marker is a permanent marker for making bright, opaque and fade-proof markings on any surface.
- The unique stainless steel fine tip makes it very easy to mark on smaller objects & places which are difficult to mark with regular broad tip markers.
- The markings made by the marker won't chip/peel/fade or rub off and it can withstand heat and weathering under adverse conditions.
- It has a special viscous ink formulation similar to paint which remains permanent on steel, alloys, metals, concrete, glass, rubber, wood & even plastics.
- The marker has a hard aluminum body filled with ink & a rubber valve at the bottom, when pumped slightly pushes ink towards a fine ball point for sharp markings.
- Ergonomic size makes it very easy to put in a pocket & use anywhere like a pen.
- Rubber valve at the bottom makes it very easy to use with continuous ink flow. Zero Wastage compared to Tube type markers. Stainless steel tip with roller ball point enables easy & smooth markings on Wet, Oily, Dry, Greasy & Extremely Rough Surfaces. 30 ml ink content (5-6 times of conventional fine tip paint markers)
- Ideal for use in Welding, Metal Cutting, Automation Industry, Spare Parts, Ship Building, Construction, Dies & Moulds, Scrap, Oil & Gas Industry Pre-Cast Cement Sheets etc.

Storage:

- Store locked up. Keep away from heat, sparks and open flame. Store in well ventilated, cool & dry place away from direct sunlight. Store in original tightly closed container.

Tip Sizes Available

- Point No. : 1 Mm Markings

Disposal:

- Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/ container in accordance with local / regional / national / international regulations.

Packaging Information

Century's Metal Marker Fine-Tip	Century's Metal Marker Fine-Tip	30 Ml Ink Content	—
Century's Metal Marker Fine-Tip 1pcs	40 Grams	—	—
Century's Metal Marker With Monocarton (1pc)	450 Grams	16 X 10 X 4.5	—
Century's Metal Marker 10 pc pack (plastic box)	1.1 Kg	18.5 X 13 X 8.5	—

Physical Properties:

Appearance	Thick coloured paste
Odour	Characteristic strong odour
Flash Point (°C)	4.8
Boiling Range (°C)	110 - 140
Specific Gravity	1.05± 0.02
VOC (% by weight)	Max. 50
Drying Time (full dry)	Max. 10 Minutes

Colors Available:

YELLOW **RED** **ORANGE** **BLACK** **BLUE** **GREEN** **WHITE** **VIOLET**

Note: Colors violet is make to order
