

CENTURY PUMP TYPE METAL MARKER

Directs of Use:

- Remove Cap. For cold start press the rubber ball/valve 4-5 times at the bottom for ink flow at the tip.
- Mark vertically at 90-degree angle & ensure the ball presses the surface for smooth ink flow.
- As pressure reduces, press the rubber valve 2-3 times to continue writing.
- Do not press the rubber bulb when not in use as it will lead to increase ink pressure.
- Clean the tip & put the cap back on when after each use

Materials Compatibility

- Century's Pump-type Metal Marker is unique marking device for permanent & fade-proof marking on any surface
- Its an industrial grade ball-point marker which are bright, opaque & weather-proof.
- It has a rigid aluminum body making it difficult to break, puncture or leak.
- It has special viscous ink formulation similar to paint which remains permanent on steel, alloys, metals, concrete, glass, rubber, wood & even plastics.
- It also has a rubber valve at the bottom for smooth ink flow. When the valve is pumped it compresses ink towards a fine ball point for smooth flow and easy writing. Zero Wastage compared to Tube type markers.
- The markings made by the marker wont chip/peel/fade or rub off and it can withstand heat and weathering under adverse conditions.
- Stainless steel tip with roller ball point enables easy & smooth markings on Wet, Oily, Dry, Greasy & Extremely Rough Surfaces. 60 ml ink content (5-6 times of conventional paint markers)

Caution:

- Do not fold the tube back & forth to avoid leakage and breakage.
- Harmful if swallowed or intentional inhalation.
- Avoid contact with eyes. Keep away from open flame.
- Please test before use.

Packaging Information

Century's Metal Marker Pump Type	Century's Metal Marker Pump Type	60 Ml Ink Content	—
	Century's Metal Marker Pump type 1 pc	100 Grams	—
	Century's Metal Marker Pump type 15 pc pack (Plastic Box)	1.70 Kg	18.5 X 13 X 8.5
	Century's Metal Marker Pump type 180 pc carton (15 x 12 plastic box)	21 Kg	43 X 40.5 X 19

Physical Properties:

Appearance	Thick coloured paste
Odour	Characteristic strong odour
Flash Point (°C)	4.8
Boiling Range (°C)	110 - 140
Specific Gravity	1.05± 0.02
VOC (% by weight)	Max. 50
Drying Time (full dry)	Max. 10 Minutes

Tip Sizes Available

- **Point No.:** 2 Mm Markings, 3 Mm Markings, 4 Mm Markings

Colors Available:

Note: Colors violet is make to order
